

International Women's Day Celebration

March 27, 2014 • Student Union • UNC Charlotte

International Women's Day (March 8) is recognized by groups around the world. This date is commemorated at the United Nations and is designated in many countries as a national holiday. When women on all continents, often divided by national boundaries and by ethnic, linguistic, cultural, economic, or political differences, come together to celebrate this day, they can reflect on a tradition that represents more than one hundred years of struggle for equality, justice, peace and development.
